

**PLACER COUNTY
AIR POLLUTION CONTROL DISTRICT**

NOTICE OF OPPORTUNITY TO REQUEST A PUBLIC HEARING

**PROPOSED DETERMINATION OF NO EMISSION SOURCES
IN PLACER COUNTY EXCEEDING REASONABLY AVAILABLE
CONTROL TECHNOLOGY EMISSION THRESHOLDS**

The Placer County Air Pollution Control District (District) proposes the regulatory action of adopting a determination, and making the negative declaration, that there are no emission sources in Placer County that exceed the Reasonably Available Control Technology (RACT) threshold established by US. EPA Control Technique Guideline (CTG) documents for the source category.

The proposed negative declaration certifies in the District, having contiguous boundaries with Placer County, there are either no sources or no sources that exceed RACT guidance emission thresholds for sixteen (16) source categories, and therefore the "Negative Declaration" is made that the requirements of Section 182(b)(2) of the Federal Clean Air Act Amendments of 1990 (CAAA) are not presently applicable to the District:

- 1) Aerospace Coatings
- 2) Automobile and Light-duty Truck Assembly Coatings
- 3) Dry Cleaning (Petroleum)
- 4) Fiberglass Boat Manufacturing
- 5) Flexible Package Printing
- 6) Large Appliances Surface Coatings
- 7) Magnet Wire
- 8) Metal Furniture Coatings
- 9) Natural Gas / Gasoline Processing
- 10) Paper and Fabric
- 11) Paper, Film, and Foil Coatings
- 12) Pharmaceutical Products
- 13) Refineries
- 14) Rubber Tire
- 15) Ships/Marine Coating
- 16) Synthetic Organic Chemicals

If adopted the negative declaration will be submitted as a proposed revision to the State Implementation Plan (SIP).
